A BIG WELCOME

Our goal is to offer you a superior service combining quality printing and exhibition solutions at very competitive prices, delivered on time. We are committed to you and it is our aim to ultimately meet your needs.

You will find a wealth of information regarding outdoor flags, portable displays, exhibition solutions and printing services. We provide a flexible, creative and innovative communications solution through a wide range of printed media. However, we don't just want you to take our word for it, you can only gauge how good our service is by first hand experience. It has been a challenging task to 'cherry pick' the best value products demonstrated in this catalogue.

Now that it has finally been completed we hope you will find it resourceful, useful and informative. It's crammed full of a variety of products and services, that will help you make the best possible choices and may also give you some creative ideas in the process.

We have laboured intensely to create a business that provides a friendly customer service and quality products. Our focus remains to ensure you receive a high level of service giving you the confidence to choose our products time after time. We are very proud of what we have already achieved and hope we can continue to provide a quality experience to all our customers.

Finally, we would like to thank all those customers that have used our services regularly over the years. We never take your valued custom for granted and will do all we can to ensure your business goes from strength to strength along with ours. We couldn't have come this far without you and we hope to continue this journey with both old and new customers for years to come.

CUSTOM PRINTED FLAGS

Custom printed flag flags are the most versatile and best value flags on the market in the UK today. Combining top of the range materials and optimum flying weights, these flags last as well as traditional sewn flags but fly much better at lower wind speeds.

Manufactured using flame-retardant 110gsm knitted polyester and fitted with rope and toggle as standard, these flags can be fitted with metal eyelets or a sleeve at no extra charge. Unlike other printers we Colour fix and wash all our outdoor fabric flags before they are dispatched so no colour runs GUARANTEED!

MATERIALS

Flags - 110gsm Knitted Polyester. This versatile fabric gives excellent colour reproduction and print through, a superb all-rounder, which we recommend for a large number of applications. Also available in FR

Airlow - 115gsm Perforated Knitted Polyester. Originally developed for beach lags, now popular for many large format lags as the mesh construction allows air circulation

BESPOKE SIZE FLAGS AVAILABLE, SINGLE OR DOUBLE SIDED - QUOTE ON REQUEST

COUNTRY & REGIONAL FLAGS

Highest quality and fantastic value digitally printed Indian flags are available in all sizes. We manufacture flags from half yard to six yard all roped and toggled ready to fly, all our flags are printed onto the best quality 110 grams per square meter knitted polyester flag material to give a superior quality flag. All our flag hems have a minimum of two rows of stitching all corners are box stitched and ends back stitched to ensure additional strength and longer life span.

Anti-Fray netting is a mesh fabric sewn into the edge of the flag which provides added protection to the fag hem, creating a barrier that bears the brunt of the forces associated with flying flags. It is intended that the anti-fray netting should break down under these forces therefore providing an opportunity to make simple routine repairs to the flag.

BESPOKE SIZE FLAGS AVAILABLE, SINGLE OR DOUBLE SIDED - QUOTE ON REQUEST

PRINTED TABLECLOTHS
DIGITAL PRINTED

Help to promote your company. If you are going to an exhibition or an event where you will be showcasing your company why not consider a promotional printed tablecloth.

Help your company to stand out from the crowd and have a professional finish to your table. We have helped thousands of companies to do this, from large blue chip companies requiring hundreds of printed tablecloths for worldwide usage to small one man outfits, our printed tablecloths can help you to win business and customers. All printed all over the cloth in a range of fabric and colour options so if you need a pantone specific background colour to your cloth or a really intricate design we can provide this for you.

BRAND YOUR GAZEBO

We use a vinyl heat transfer process to reproduce simple graphics and text. This is where the branding is cut from standard vinyl colours and then heat pressed onto the canopy fabric. It is a very similar process to the way football shirts and t-shirts are printed, but on a much heavier duty scale. The vinyl decals actually ingratiate themselves as part of the material with the application of heat.

The standard vinyl colours available are black, white, red, forest green, navy blue, royal blue, sky blue, silver, brown, purple, burgundy, yellow, orange and pink.

We can also reproduce digital images or pantone specific colours by digitally printing graphics onto a white vinyl background. This is then heat applied to the fabric instead. There is a white border associated with this technique, but if the image is going onto a white background then it is not noticeable. This method is more expensive than using standard vinyls.

Please ask our sales team for further details.

FENCE & EVENT BRANDING

Whatever kind of event or campaign you are running, our expertise in pitch banners, stadium banners, sponsorship banners and general event branding can help. Corporate function, large sporting event, festival, rock concert, charity event, party, conference, exhibition, advertising or experiential marketing campaign - we have a solution for you.

We can assist you to create the most captivating display using FABRIC to achieve the IMPACT that YOU or your sponsors demand. We are specialist in the design, production, logistics and installation of large FABRIC media - think big, very BIG!

Our event products include: Heras fencing scrim, Police/Crowd Barrier Covers, Flags & Flag Poles Stage Backdrops and Speaker Scrims, Podium / Press Backdrop Units, Wayfinding Signage, Banners, Window Graphics, Event Signage.

FLUX CHAIR

NEW

The flux chair. Our award-winning Dutch design.
Looks like a giant envelope; turns into a designer chair.
Simple. One craftily cut sheet of sustainable polypropylene;
six colours to choose from; zero tools necessary.
For extra comfort check out our chair pads below.

It takes seconds to assemble and looks fantastic, we have found that people that use them at exhibitions often get a higher than usual response at the their events simply because people come over to ask about the chairs! Then one thing leads to another and you have a new customer!

The chairs are lightweight, made from sustainable materials (polypropylene), completely waterproof and 100% recyclable but by no means disposable, these chairs are built to last and can even withstand up to 160kg!

- Flux chair can be purchased plain or branded
- Folded height: 770mm x 850mm x 15mm
- Weight: 5KG
- Assembled height 840mm
- Assembled Width: 660mm

Code: FCP005

LOUNGE FURNITURE

Our Lounge furniture is handmade by experienced craftsmen and digital printed, our lobby furniture is sure to stand out and catch the attention of potential customers.

All our furniture is available in two shapes - square or oval. The entire surface of the furniture is printable, and in areas exposed to wear, extra varnish is added to ensure the printing lasts and the colours remain vibrant.

A solid frame, polyurethane foam and latex printing of the highest quality on eco-leather make for a unique appearance and high ease of use.

VISION PRINTMAT

Logo mats are an attractive way to greet visitors to your premises. Whether you're an office, retail store, hotel, school, college, playgroup or sports club, a fully bespoke Mat Creations logo mat makes an excellent lasting impression on your visitors, whilst providing professional standards of functionality that are second to none.

Our printed logo mats are available with a choice of rubber backing types depending on where you will position your mat. Our standard anti-slip black rubber backing is available in flat back for hard floor surface areas (such as ceramic tiles, hard wood or laminate floors) or gripper backing (which is more suited to carpeted floors of fabric tiled areas). We also have a new white rubber backing that is specially engineered for highly polished surfaces such as wooden floors and teak boat decks.

- Customised designs or logos
- High graphic option available
- Large colour pallet
- Pantone matching available
- 7 standard sizes
- Bespoke sizes available
- Washable 40°C
- Anti-slip rubber backing
- Bullet Anti-trip border
- Bullet 2-years manufacturing guarantee
- Bullet 11-years colourfast guarantee

REPLACEMENT CASSETTE CARTRIDGES

Cassette banners have an advantage as their graphic cartridge is housed independently from the main base unit. This means you can change your graphic as often as you need simply and easily yourself. There is no need to return or replace your banner to have new graphics fitted, simply remove and replace the cartridge for an instant graphic change.

Keep a selection of cartridges at hand to change your message as required, which allows for fast moving promotions.

MODULAR ROLLER BANNERS

Modular roller banners are configurable banners that can be linked to one another to form larger displays, they can also be set at various heights depending on your message or size of area.

AERO MODULAR

This versatile modular roller banner display system allows for flexible display configuration, making it versatile enough for both promotional displays and exhibitions spaces. The height adjustable poles and linkable graphics cassettes allow for easy adjustment of the modular components

- Each pole adjusts to 3 different graphic heights
- The system can be positioned to create a flat back -wall or angled in 90 degree increments
- Graphics attach to roller cassettes that pull down to attach to the pole base and can be retracted during transport
- Lightweight aluminium components pack down into padded nylon carry bags
- Complete with two universal fittings for spotlighting or floodlighting – suitable for Powerspot 750 or 1000 lights
- The modular design makes it easy to link to additional units
- Roller cassettes available in 3 widths
- (1000mm, 1500mm & 2000mm), can be purchased individually

Code: AM100-1

9M² STANDS

Single back wall, open on three sides. A basic stand design to suit the cost conscious pocket whilst offering a smart stand solution. The plain yet spacious back wall allows for literature shelving, poser table, tv monitor and lighting. As there is only a single back wall this allows plenty of floor space for a counter and chair to welcome guests

Constructed from Linear vector with magnetic tape and PVC graphics.

Code: EXPO1

9M² STANDS

Pop-up displays are aptly named as they pop up and click into place using magnetic locking arms, graphics are attached using mag bars. Displays can be as simple as you want or create large exhibition areas at a very cost effective price.

Connect three frames together with linking panels to create a flowing design complete with centre cut out and tv monitor.

For extra impact and height add a four quad Pop-up tower; for storage and shelving there is also a Pop-up counter available. Constructed using three Pop-up frames and Pop-up tower.

Code: EXPO2

9M² STANDS

Simple design with one shaped back wall, allowing easy access onto your stand. Straight and curved panels allow for interesting multi dimensional graphics, use lighting for the ultimate effect.With plenty of space for accessorising and room for a welcome counter, this is a very cost effective design for when you have limited space.

Constructed from Linear vector with PVC graphics

Code: EXPO3

9M² STANDS

Open on two sides this stand has plenty of space for a bar table and stools, poser table plus a welcome counter. The sharp design also allows for literature shelves on the edges of the stand and over panel lighting.

Constructed from Linear vector with magnetic tape and PVC graphics.

Code: EXPO4

9M² STANDS

Cost effective and interesting way of creating an exhibition stand using Linking banner kits. Create a large area for your message at a fraction of the cost using two Premium roller banners with a suspended graphic in between. Complete the area using an Oyster case which converts into a large table top counter with storage and shelving within.

Constructed using Premium roller banners with banner linking kit

Code: EXPO5

9M² STANDS

Eye-catching shaped display and counter which offers access from three sides. Recessed alcoves providing space for acrylic shelves. Plenty of floor space allowing for large counter and literature stands

Constructed from Linear vector with textile fabric and PVC graphics

Code: EXPO6

9M² STANDS

A U shaped stand design with three walls and open at the front, offering a little more privacy from neighbouring exhibitors. The design still allows space for table and four chairs, a poser table and a welcome counter. The straight walls offer plenty of area for tv monitors and literature racking plus plenty of overhead lighting.

Constructed from Linear vector with magnetic tape and PVC graphics

Code: EXPO7

12M² STANDS

Clever design which is open on three sides with a straight back wall. Large counters positioned close to back of the stand with plenty of counter space for monitors. Tall Linear vector graphic panels are attached behind each counter for extra branding or graphics options. Floor is left clear and open welcoming customers onto the stand.

Constructed from Linear vector with textile fabric graphics

Code: EXPO8

12M² STANDS

Open on two sides with straight back walls and corner section. Design allows for integral shelving sheltered by two end panels offering a sense of privacy whilst on the stand. With plenty of room for a welcome counter and table and chairs, you can also accessories with ambient lighting and tv monitors.

Constructed from Linear vector with PVC graphics

Code: EXPO9

16M² STANDS

Attractive design open on two sides with tall end columns giving multi dimension to a simple design. Plenty of room to add bar table and stools plus welcome counter and literature holders. Columns allow the mounting for TV monitors.

Constructed from Linear vector with textile fabric graphic.

Code: EXP10

18M² STANDS

Interesting stand open on two sides with two tall arches that draw attention. The design flow tempts your customers to walk through the archways, ideal for show casing artwork or information on the large back walls and pillar fronts. Room for table and chairs plus welcome counter, tv monitors and literature holders.

Constructed from Linear vector with textile fabric graphics

Code: EXPO11

30M² STANDS

Impressive designed island stand with large hanging structure above offering excellent branding and awareness opportunities. High impact stand with some smart ways to reconfigure. Centre tower can be re-shaped into a back wall; use two, three or four of the graphic legs depending on space.

All designs incorporate a welcome counter, literature holders and tv monitors. For maximum exposure all three designs have a Formulate hanging structure making sure your stand is seen from all corners of the exhibition hall.

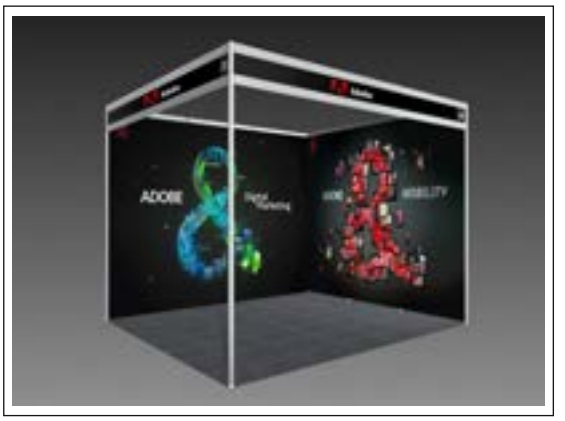
Code: EXP12

SHELL SCHEME GRAPHICS

Exhibition and trade show shell-schemes are the most common spaces potential exhibitors will book when exhibiting at an event.

We have produced the simplest way to brand these shell-schemes by using PrintTac, Rollable tear resistant graphics, rigid foamex pvc graphics or vector frame with seamless fabric graphic. The graphic panels sit smoothly within the aluminium upright posts. We can even add the hook and loop velcro to your panels if required.

SHELL PRINTTAC - SHELL SCHEME GRAPHICS



Simple, very cost-effective, very portable and very ecological.

Shell PrintTac is a made-to-measure, floor-to-ceiling graphic panel that sticks beautifully to your shell scheme panel and can be removed leaving NO residue. With care it can be used again on a variety of surfaces.

Each Shell PrintTac panel measures 950mm x 2340mm (standard size of a UK and Europe shell scheme panel)

- Leaves a visible shell scheme framework
- Simple fitting instructions are provided
- Made from an amazingly strong, fire-retardant, polyester blend
- Wont rip or wrinkle
- Good scratch and scuff resistance

VECTOR FRAME & BRACKETS WITH FABRIC GRAPHICS

We can produce stunning exhibition graphics to fit any shell scheme by using the Vector frame and brackets. This ensures the vector frame wall area provides a seamless fabric graphic wall.

RIGID SHELL SCHEME PANELS

We have a wide range of velcro friendly Rigid display panels. Our printed rigid display boards make the ideal trade show exhibit graphics. These Display Boards are a popular solution to branding exhibition and trade show stands. Large format high quality printing using vivid inks onto a 3mm foamex PVC board. You get a lightweight durable display board that can be screwed or attached using Velcro onto an exhibition booth.

LINEAR MODULAR DISPLAYS

Sturdy aluminium kit available both straight or curved and with attractive end bar spacers. Simple to construct but ideal for a portable or permanent display.

The Linear Kit B is a stylish aluminium frame display system suitable for permanent and short term displays. Available straight or curved, the Linear Kit B provides an alternative to pop up displays and banner stands for someone who wants something a little more solid and permanent. Available with solid foamboard graphics or with rollable lightweight graphics, the Linear Kit B also offers the opportunity to attach accessories to the upright poles such as literature racks, shelves and LCD screens.

TWIST DISPLAY SYSTEMS

Twist is one of the most portable, flexible and modular display systems available today. The Twist range of products has been designed to add flexibility, portability and value for money to any exhibition or display situation. Manufactured in the UK, Twist products can be used in any exhibiting situation from a single banner stand, shell scheme, or a bespoke stand. Its flexible elements combine to make a unique and striking graphic presence that will have a lasting impression. You can add flexi link kits to the system to make an exclusive shape, add TFT monitors to make your stand a visual display with interactive elements and add custom height extensions to your existing system to give your stand the attention it deserves.

SLIM LED LIGHT BOX

Our LED light boxes are a super slim 32mm deep. Offering a bright even spread of white light these light boxes are more cost effective to run than traditional florescent light boxes. Hence, making these our most“environmentally friendly” and reliable light boxes.

- Super slim 32mm deep frame
- LED illumination resulting in energy savings
- Snap open frame for easy change of graphics
- 1.5mm thick clear protective graphics cover
- Silver anodised aluminium frame
- No assembly required

Please remember, although you can buy florescent light boxes cheaper than these, by the time you add your running costs they work out more expensive than LED's. LED light boxes are also expected to last 5 times longer than a standard florescent. Plus you don't need to worry about broken bulbs!

DIGITAL ADVERTISING DISPLAYS

Our user friendly Digital Advertising Displays come in a variety of styles and sizes. All of our products are designed for constant 24/7 public usage; achieved by using commercial grade panels and components.

This ensures that the ultra-sharp colours don't fade over time, as they would with other panels found in TVs and PC monitors. To protect against potential damage or tampering from the public our Android displays have a mild steel enclosure, a stylish tempered glass front panel, no easily accessible buttons or controls and a locker door to prevent any unwanted updates.

40" FREESTANDING DIGITAL POSTERS WITH INTEGRATED LITERATURE STANDS

The brand new range of HD LCD Freestanding Digital Posters are designed to be a complete digital signage solution. Thanks to their built in HD media player they require no additional hardware such as PCs, DVD players, excess cables or software; you simply plug and play. They also have the exceptional feature of full HD 1080p video display.

The 40” Freestanding Digital Poster has an integrated literature stand, providing a great balance between “the now” and “the later” with an eye-catching and immediate visual impact combined with printed material that can be taken away.

As well as being portable, they also have the ability to be in constant use and a wide viewing angle. Tempered glass styling and no buttons or controls on show provide a sleek elegance.

The lockable compartment is suitable for concealing an external media player or small PC that can be used to directly display content. As well as functioning as a comprehensive user-friendly standalone solution on our Freestanding Digital Posters can also be networked for remote updates.

An eco-friendly power timer allows the user to set what time the display turns on and off during a week. This means that your overall power consumption will be conveniently reduced as the display will not be running when it is not required. Some of the ideal environments for this range include retail location like supermarkets, department stores, show rooms and shopping centres as well as banks, gyms, train/bus stations, travel agents, hospitals, museums, exhibition displays, cinemas and conference halls, hotel lobbies and reception areas.

Code: FDP-001

SLIMLINE FREESTANDING DIGITAL POSTERS

Introducing the new range of HD Slim-line Freestanding Digital Posters, with their built in HD media player they require no additional hardware such as PCs, DVD players, excess cables or software, you simply load your media onto a USB stick then plug and play.

Their button less tempered glass face, rounded corners, super slim profile and aluminum frame all add to their eye catching tablet like aesthetics.

The displays are fitted with commercial grade panels providing them with a wide viewing angle, improved colour, contrast and brightness as well as the ability to be used 24 hours a day. With an eco-friendly power timer you can be assured of their green credentials and low operating costs. Also included is simple and intuitive piece of scheduling software which allows you to Schedule different content to play at different times of the day. As well as this you can add scrolling text to compliment your content and get your message across.

The new Slim-line Freestanding Digital Posters also feature HDMI and VGA inputs, allowing you to connect any number of external devices such as a PC or external media player - which can be hidden internally.

PVC BANNERS

For business or personal use. PVC Banners are a versatile direct advertising medium. Digitally printed they can incorporate full colour graphics to give your message impact.

Banners work in many different situations and sizes. They do not have to be huge to be effective and can be anything from a well-placed shop front banner to an enormous building wrap.

No matter what size or quantity, our in house production facilities enable us to provide anything from one off prints to full national promotional roll-outs for all indoor and outdoor applications. Please contact our sales team for a quote to your requirements.

- Banner Material Available :
- 440gsm PVC
- 550gsm PVC
- 450gsm Ripstop (tear resistant)
- 440gsm Mesh PVC
- Quantity discounts
- Super fast Turnaround
- High Definition Print
- Multiple Finishing Options (hemmed and eyelets, pole pockets or trimmed to size)

LIFE SIZE STANDEES

Need a standee? Turn any of your photos into a fun life size cardboard cutout! You've probably seen cardboard standee cutouts of celebrities or athletes - now they're for everyone! You can now have a lifesize cardboard standee of yourself, a friend or family member!

We make high quality life size standee cardboard cutouts right from your photos! We carefully remove the background, cut out the subject and give it a rear free standing easel for your cardboard cutout stands up all on its own!

Order a fun lifesize custom standee cardboard cutout of yourself, a friend, a family member, pets, animals, cars - anything you can think of!

Lifesize standees are UV digitally printed directly onto 2000micron display board or EB flute corrugated card board. A strut is then glued on the rear so your standee will become free standing unit.

QUOTES ON REQUEST - PLEASE CONTACT OUR SALES TEAM
